

Exciting Summer Offerings for Grades 6-12

Moorestown Friends is delighted to announce three new summer program offerings to take place in Summer 2025 right here on the MFS campus. The courses below are available to MFS and non-MFS students who will be entering Grades 6-12 next year. Please spread the word to your friends who may have students who can benefit from these exciting new courses!

Artificial Intelligence for Social Good Offered by Inspirit AI, hosted at MFS

Moorestown Friends School is offering an in-person, pre-college, project-based artificial intelligence program through Inspirit AI, an AI education program developed and taught by Stanford and MIT graduates this summer on campus.
